

U.S. Patent Application Serial No. **10/730,258**
Amendment filed April 17, 2006
Reply to OA dated November 15, 2005

AMENDMENTS TO THE CLAIMS:

Please cancel claim 6 without prejudice or disclaimer, and amend claims 1 and 2, as follows.

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (Currently Amended): A process for producing sporangia of *Bacillus popilliae* containing spores and parasporal bodies comprising the step of culturing *Bacillus popilliae* in a medium containing an adsorbent and 0.2-4.0% by weight of free glutamic acid.

Claim 2 (Currently Amended): A process for producing sporangia of *Bacillus popilliae* according to claim 1, wherein the ratio of free glutamic acid to total amino acids contained in the medium is within the range of 35 to 90% by weight.

Claim 3 (Original): A process for producing sporangia of *Bacillus popilliae* according to claim 1, wherein the medium further contains pyruvic acid.

Claim 4 (Original): A process for producing sporangia of *Bacillus popilliae* according to claim 3, wherein the ratio of pyruvic acid in the medium is within the range of 0.01 to 0.5% by weight.

U.S. Patent Application Serial No. **10/730,258**
Amendment filed April 17, 2006
Reply to OA dated November 15, 2005

Claim 5 (Original): A control agent for *Scarabaeidae* insects containing as active ingredient sporangia of *Bacillus popilliae* containing spores and parasporal bodies obtained by the production process according to claim 1.

Claim 6 (Canceled).
